

Auto Grader Report

UAID: 300349320
Course: CSCE 2004
Task: lab8b

Syntax - Correct

Program source:

```
    return max;
}

// Function to find min value in array
int find_min(int array[], int size) {
    int min = array[0];
    for (int index = 1; index < size; index++) {
        if (array[index] < min)
            min = array[index];
    }
    return min;
}

int main()
{
    // Declare array of integers
    const int DATA_SIZE = 20;
    int data[DATA_SIZE] = {0};

    // Initialize and print array
    init_array(data, DATA_SIZE, 100);
    print_array(data, DATA_SIZE);

    cout << "max = " << find_max(data, DATA_SIZE) << endl
         << "min = " << find_min(data, DATA_SIZE) << endl;

    return 0 ;
}
```

Test #1 - Correct

Your program output:

```
83 86 77 15 93 35 86 92 49 21 62 27 90 59 63 26 40 26 72 36
max = 93
min = 15
```

Expected program output:

```
83 86 77 15 93 35 86 92 49 21 62 27 90 59 63 26 40 26 72 36
max = 93
min = 15
```

Score = 100%
